◆ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

The origin of slipper production in Kahoku Town can be traced back to the thong sandals (zori) that farmers wove from rice straw, an abundant by-product of rice cultivation. Yamagata Prefecture was recorded as the country's largest producer of zori in 1941. Rapid post-WWII lifestyle changes, however, saw traditional footwear such as tabi, zori and geta being replaced by socks, slippers, sandals and shoes. Our company commenced slipper production as early as 1955, paving the way for Yamagata to become the country's top producer of slippers, and has since continuously maintained and improved on its technical excellence in slipper production.

◆ CRAFTSMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

Our company president, aged 97, is at the center of production at our tiny factory, which produces slippers with prime importance on comfort and durability. We apply dedicated craftsmanship and technical excellence developed over many years to produce products that meet today's needs, and look forward to offering slippers that will keep your feet cool in summer and warm in winter.

The safflower is the official prefecture flower of Yamagata Prefecture, as well as town flower of Kahoku Town. The plant has been widely cultivated locally since as far back as the Muromachi period (1338–1573). Between the Edo period (1603–1867) and the early Meiji era (1868–1912), the area thrived as a major hub on the Mogami River freight route, which left behind fine cultural legacies with direct cultural links to Osaka and Kyoto. This product is an expression of the rich history and heritage of Kahoku slippers. Available in a choice of khaki, red, and blue.
