◆EPISODE OF FOUNDATION FOUNDER'S THOUGHT

My parents' home was also originally a textile manufacturing facility in Yonezawa. I, as the third generation, began manufacturing umou futon (down quilts) using Yonezawa-ori woven fabric. The down quilts made of Yonezawa-ori silk fabric on which yuzen-style patterns are printed manually were much appreciated by customers at that time, and I had great success with the quilts. In my home city of Yonezawa, there is a mineral ore with excellent effects. So, looking ahead to the next generation, we collaborated with the Faculty of Engineering, Yamagata University, to conduct detailed research on this ore. From the research results, it was found that the ore emits a large amount of far-infrared rays and also features other excellent effects. In addition, the ore had always been highly evaluated as a good-quality ore, and we came to know that it is very effective for health. We therefore developed healthy bedclothes by kneading the specially processed ore into fibers. Bedclothes that use this fiber improve blood circulation and increase body heat and immune strength. These bedclothes are currently well-received in Japan, and we would like to sell them throughout the world in the future.

◆CRAFTMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

Yonezawa City, Yamagata Prefecture, where our company is located, has links to many feudal lords and samurai who earned their place in history, such as the Date family and the Uesugi family. In and after the Edo period in particular, Yonezawa flourished as the castle town of the Uesugi family. Yozan Uesugi, the ninth head of the Yonezawa Domain, who is famous for his words "Where there is a will, there is a way," established Yonezawa-ori woven fabric, which made Yonezawa a nationally famous location for the textile industry. Borne from Yonezawa-ori, our company carefully selected materials and developed original healthy products that other companies cannot copy in the spirit of "Love and Righteousness" of Uesugi samurai, whom my predecessor adored. All our employees strive to provide products that satisfy customers using their excellent skills and rich experience.

BRAND NAME	ZEOTEX®
PRODUCT NAME	ZEOTEX® Luxury healthy ALDS feather futon
GENERIC NAME	Feathered Futon
MATERIALS	Front fabric : Super long Cotton100% Padding : Feather (Made in Canada) Back fabric : ZEOTEX® Super long cotton 100% (kneaded natural ore)
PERSON IN CHARGE	Yukari KUMEZAWA
PRODUCTION AREA	Yonezawa Yamagata Japan
SIZE	S:150 × 210cm D:190 × 210cm
WEIGHT	S : 2.2kg D : 2.8kg Q : 3.2kg
DOMESTIC RETAIL PRICE	S : JPY88,000 (including tax) D : JPY105,600 (including tax) Q : JPY127,000 (including tax)

This product adopts the Air Lock Down Structure (ALDS) to prevent down from going too far to one side. A special valve is attached to the hole from which down is blown into the quilt so that the down will not move too far to one side even after using the quilt for a long time. As the gore is longer than in usual quilts, down is able to swell up uniformly. Moreover, as the natural ore is kneaded into the fabric, the product increases immune strength, retains heat and fits well to your body. So this product will keep you warm and enable you to sleep well even if you live in cold regions. Top-quality down, such as Hungarian, Polish and Canadian are used for the filling.

◆ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

We are a bedding maker and wholesaler celebrating our 70th year of business this year. Our major businesses are OEM, where we manufacture and sell original brand bedding to around 30 major companies such as POLA and Panasonic. We also wholesale products to around 200 small-scale retailers nationwide. One of our important management philosophies is "coexistence and shared prosperity." We believe it is important that not only our company but our partner retailers that actually supply products to end-users are able to sell quality products with confidence and improve customer satisfaction. Most of our products undergo several processes, including measurement, tests, approval, and recommendations conducted by public entities and facilities comprising third-party organizations, before being sold. Such an uncompromising approach towards supplying quality products is our strength, which we believe has enabled us to garner customer trust and continue business for as long as 70 years. In recent years, we have worked to strengthen our product development capabilities to develop and manufacture high quality original products in an effort to become more than a wholesaler.

❖ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

Abe Sangyo is a maker of house shoes with a focus on comfort. We differentiate our products from others by referring to them as “home shoes” rather than slippers.

We are located in Kahoku, Yamagata Prefecture, a town well-known for the production of zori (traditional Japanese sandals) in the early 20th century, and the country’s largest producer of slippers from the latter 20th century onward.

Our business was founded in 1919 by Saikichi Abe, who opened Abe Saikichi Shoten, a dealer and producer of zori insoles. In 1967 his successor, also named Saikichi Abe, in response to changing lifestyles, diversified into the production of luxury slippers in original designs, targeting Tokyo department stores. After becoming the third-generation successor to the business in 1999, current company president Hirotooshi Abe embarked on the development of new original products while producing for other brands in order to shift the company away from its heavy reliance on department store wholesalers to areas where more growth was likely in the future. Some of the resulting products have been selected for the Good Design Award, Yamagata Excellent Design Award, and other accolades.

❖ CRAFTMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

Each of our products is carefully handmade, including not just our zori sandals of past years, but our house shoes as well. A high level of dexterity and skill is required in making footwear, and we have always been an active employer of local women—including work-from-home grandmothers—who play an important role in the house shoe industry. In this sense, our industry may be described as truly local. Women make up about 90% of our current staff, and are vital for all aspects of our operation.

◆ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

The origin of slipper production in Kahoku Town can be traced back to the thong sandals (zori) that farmers wove from rice straw, an abundant by-product of rice cultivation. Yamagata Prefecture was recorded as the country's largest producer of zori in 1941. Rapid post-WWII lifestyle changes, however, saw traditional footwear such as tabi, zori and geta being replaced by socks, slippers, sandals and shoes. Our company commenced slipper production as early as 1955, paving the way for Yamagata to become the country's top producer of slippers, and has since continuously maintained and improved on its technical excellence in slipper production.

◆ CRAFTSMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

Our company president, aged 97, is at the center of production at our tiny factory, which produces slippers with prime importance on comfort and durability. We apply dedicated craftsmanship and technical excellence developed over many years to produce products that meet today's needs, and look forward to offering slippers that will keep your feet cool in summer and warm in winter.

The safflower is the official prefecture flower of Yamagata Prefecture, as well as town flower of Kahoku Town. The plant has been widely cultivated locally since as far back as the Muromachi period (1338–1573). Between the Edo period (1603–1867) and the early Meiji era (1868–1912), the area thrived as a major hub on the Mogami River freight route, which left behind fine cultural legacies with direct cultural links to Osaka and Kyoto. This product is an expression of the rich history and heritage of Kahoku slippers. Available in a choice of khaki, red, and blue.
