◆ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

We have continued to do business as a manufacturer specializing in shogi (Japanese chess) pieces for four generations. At the time of our founding, we manufactured cheap popular products. Presently, however, we manufacture a wide variety of products ranging from a set of pieces for beginners to high-end pieces called "moriagegoma" that are used in title matches, etc.

◆ CRAFTSMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

We devote ourselves to manufacturing shogi pieces with the utmost care so that users of our products can play shogi comfortably. We conduct all processes in-house, from purchasing logs as raw materials to drying them and making shogi pieces.

◆ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

Our founder (present chairman) was a medical representative at a major pharmaceutical company. He chose to start a business in his hometown so that he could contribute to the local economy by creating year-round employment uninterrupted by the long, snowy winters of Yamagata. Our current president makes it a point to personally work at pop-up sales events (held at department stores and typically focusing on regional specialties, these events are held almost on a monthly basis somewhere in the country) because he finds it extremely enjoyable to meet and serve customers who buy the products we have designed and created. These events also provide opportunities for us to receive feedback directly from customers, even leading to new models inspired by customer ideas, which are internally referred to by the respective customer's names. Since the start of the company, manual production has characterized our products, which are designed, produced, sold, and repaired in-house. Each product is carefully handmade by artisans recruited locally. Rather than just any wallet, the company strives to offer products that users can feel increasingly attached to over time. Luego is a Spanish parting word similar to "see you later." We hope customers will appreciate the superior finish of our products, their soft feel, and handsome beauty.

◆ CRAFTSMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

The craftspeople who make LUEGO products often say that they can repair anything that they make. This is because LUEGO leather wallets and accessories are designed by the artisans themselves. Selling a product to a customer is not the end, but the start of a long, shared journey. Whenever a new product is developed, the prototypes go through a lengthy, painstaking process of trial and testing. LUEGO products require many processes of burnishing, which is a method of edge finishing, using dyes and grounds that need to be adjusted to ambient temperatures and humidity levels. Under some seasonal conditions, it is not unusual for edge treatment alone to take several days. Artisans adjust the pressure of their fingers according to the moisture content of the leather as perceived by how the leather feels on their fingertips. All steps of production except the sewing is performed manually, allowing delicate adjustments to take place as a matter of course in response to subtle changes in the leather. Typically, products arriving for repairs are scrutinized like long-lost children being reunited with their "parents," who might marvel at the excellent condition of a ten-year-old product, for instance, or admire the sheen of well-used leather.

◆ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

The studio started as a privately owned woodturning business established in 1946 and located in Oemachi Aterazawa, Nishimurayama-gun, Yamagata Prefecture. Its flagship product, the peach stone tea caddy, was launched in 1960. The novel concept of using peach stone as a craft material made the product topical, and has kept it in production past its 60th anniversary in 2020. In 1974, Noriyasu started to study under Teisaku, the founder of this business, and expanded the peach stone craft range to include trays, tea saucers, candy bowls and other items. In 2006, Keita, the successor to Noriyasu, started studying as Noriyasu's apprentice. Japan's Tohoku region, especially Yamagata, is among the country's leading producers of fruit, including peaches. Peach stones are very hard and hard-wearing. They can be polished to a gemstone-like beautiful gloss, which deepens with age and handling. Their material beauty caught the eye of Teisaku, the founder of this business, who investigated their potentiality as a craft material for many years until he perfected peach stone craft, the highly original art of manually cutting, assembling, and then carefully polishing peach stones. They are used to create products that fascinate people, who often wonder what they are made of. The products have a comforting handmade warmth about them, and improve with age and use. We are confident that users will find our products highly satisfying.

◆ CRAFTSMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

1. Peach stone craft is the country's only range of craft items made from peach stones for the appreciation of the beauty of natural shapes.
2. The use of natural materials is of prime importance to this studio, which explores combinations of locally produced peach stone and natural wood, producing products that highlight the material beauty of peach stone and zelkova wood.
3. Our products are produced and sold as officially certified Oe Brand products.
4. Our products are environmentally friendly because they are made from peach stones from peach canning plants, which would otherwise become industrial waste.
5. For greater perfection and accuracy, products are made from materials washed and allowed to dry for seven to eight years.
6. All stages of production take place in-house at this studio.
7. Some of our products are available as Yamagata Prefecture's Furusato Nozei (Hometown Tax) gifts.
8. We were awarded Yamagata's prefectural award for excellent craft skills.

❖ EPISODE OF FOUNDATION FOUNDER'S THOUGHT

Lisen is a metalwork studio that produces tableware, decorative objects, jewelry, and other products made of aluminum. Lisen's proprietary technique for dyeing metal with natural dyes achieves products that can't be found elsewhere else. The use of aluminum, which is lightweight and easy to handle, enables us to offer a wide range of household objects suitable for everyday use. Their beauty and technical uniqueness have made our products available at department stores and boutiques throughout Japan.

❖ CRAFTSMAN'S THOUGHT, COMMITMENT RELATIONSHIP WITH THE COMMUNITY

The products made by Lisen seek to bring the sensation of being surrounded by nature into the home. They aim to capture the brief moments of ever-changing nature—light, wind, water, and time—for displays that add color to everyday living. Our studio is located between the Asahi mountain range and one of its foothill villages, where nature's blessings are abundant. Each product is made with the utmost care and attention so as to successfully embody and express the inspiration we receive from the changing seasons, and the countless stars adorning the night sky. Aluminum products are easier to incorporate into everyday living because they require less maintenance than many other metals. We hope customers will find their own unique styles of enjoying our household products, which embody nature's vitality in their highly original shapes and exquisite colors.
